#### The industry-leading production line Ground Bond tester.

Our HYAMP III series of manual Ground Bond testers verifies the integrity of your product's ground circuitry in a convenient cabinet design. Choose from 4 different models with varying output current capabilities in compliance with international standards on the production line or in the lab. Choose to operate the HYAMP III from our intuitive user interface or utilize the PLC I/O. Accurate 4-wire measurement and milliohm offset capability ensure your test results are accurate. Use the HYAMP III stand-alone or interconnect with a Hypot III or HypotULTRA III to form a complete safety compliance test system.

Remote Control &

Signal Output

The following input and output signals are provided

through two 9 pin D type connectors:

1. Remote control: Test, Reset, Interlock, and

Withstand Processing

2. Remote recall of memory program #1, #2, and #3

3. Outputs: Pass, Fail, Test-in-process, Start Out and Reset Out

**Program Memory** 10 Memories, 3 steps per memory

Interface RS-232 Standard for Model 3145

Optional external RS-232 interface for Model 3130
