

RFScanner Antenna Measurement in Seconds

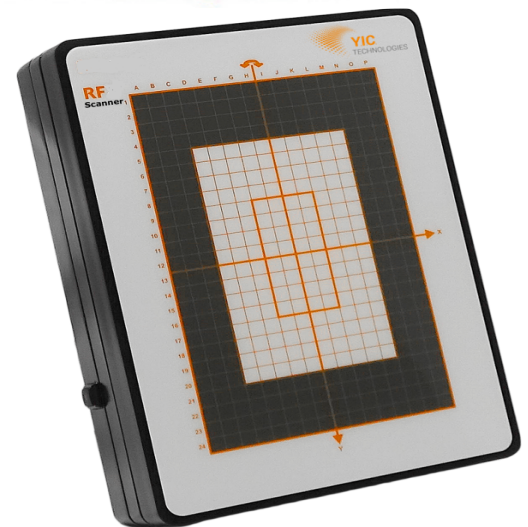

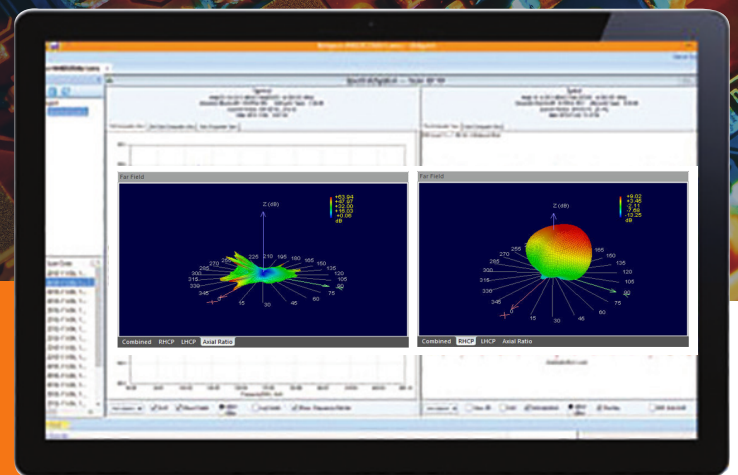

Helping Engineers Characterise Antennas in Real-Time

Real time Antenna Testing
& Characterization in your own
lab environment

Provides far-field patterns,
Bi-sections, EIRP and TRP, Gain
& Efficiency in seconds

Test & Evaluate multiple design
variations and optimise complex
Antenna designs

Easy-to-use, Cost effective, and
proven desktop solution

**TEST
ON-SITE**

**RESULTS IN
SECONDS**

**INCREASED
EFFICIENCY**

**REDUCED
DESIGN TIME**

**REDUCED
COSTS**
